

## OmniArch Capital Group: News Release

**Market Wire** updated March 04, 2010

CALGARY, Alberta (April 21, 2010) - [OmniArch](#) Capital Reveals [Bond Fund](#) Designed to Capture Opportunity from the [US Credit Crunch](#)

As Canadian's prepare to spring clean their investments, [OmniArch](#) Capital is thrilled to announce the launch of the [OmniArch Fixed Income Bond](#), offering Canadians an [alternative investment](#) opportunity positioned to securely take advantage of the [US credit crunch](#).

Jay R Modi, [OmniArch](#)'s Chief Executive, explains the due diligence of their team in carefully selecting performing, cash flowing bonds in the United States; and the hunger for this type of investment based on the demand from Canadians, wanting to diversify their portfolios with secured [alternative investments](#). “The [OmniArch Fixed Income Bond](#) is the result of a multi-tiered, labor intensive process used to determine that all of these bonds meet our stringent criteria and are able to produce quantifiable cash flow and long term security. Our team has over 25 years of experience in the bond industry. We have seen all of the mistakes that have been made in the United States over the past decade and are now taking advantage of the market conditions by using our extensive experience and knowledge within the Bond market.”

The fund, designed to take advantage of market driven opportunity was diligently crafted to include high performing bonds bought at a discount to face value and backed by high value US – based assets, secured by internally verified quality collateral. Because the purchase of assets are made well below face values, every dollar invested is secured by assets (based on this face value) of greater value. The minimum bond security to investor dollars is a minimum ratio of 2 to 1 (acquisition value : face value) and many attain a ratio of 3 times or greater.

The fund is forecasted to yield investors a 10% interest annually, paid out monthly. Increasing the accessibility to everyday investors, the [OmniArch Fixed Income Bond](#) is available to all investors with a minimum of \$5000 to invest and is eligible for contribution to RRSPs, RESPs, and TFSAs.

Mr Modi continues, “We know that this current economic market has presented unprecedented opportunities for investors and investors are excited to take advantage of these opportunities.”
